

Demonstration of Proposed Features

Date	30 September 2026
Team ID	SWTID-2026-3580
Project Name	EduGenie: Google Gemini Powered Learning Assistant
This document captures the proposed features of EduGenie and tracks whether each feature was successfully implemented and demonstrated. It provides evidence of the team's ability to deliver the planned AI-powered learning assistant.	

1	Student Q&A	Allows students to ask educational questions and receive AI-generated answers using the Gemini-powered backend.	Implemented	Yes	Tested through the EduGenie Q&A interface and FastAPI endpoint.
2	Concept Explanation	Explains difficult educational topics in a simpler and student-friendly manner.	Implemented	Yes	Tested using topic-based explanation requests.
3	Quiz Generation	Generates multiple-choice quizzes with questions and answer options based on a selected topic.	Implemented	Yes	Quiz generation and answer-check functionality demonstrated.
4	Long-Passage Summarization	Converts lengthy educational text into a concise summary containing the important information.	Implemented	Yes	Tested using the summarization functionality.
5	Personalized Learning Path	Generates structured learning recommendations across beginner, intermediate, and advanced levels.	Implemented	Yes	Learning-path recommendation endpoint and output demonstrated.
6	Web-Based Learning Interface	Provides a responsive HTML/CSS/JavaScript interface through which students can access all EduGenie learning features.	Implemented	Yes	Integrated with the FastAPI backend and tested locally.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
