

EDUGENIE — CODE LAYOUT, READABILITY AND REUSABILITY

Application layout

main.py, gemini_client.py, qna.py, explanation_module.py, quiz_module.py, summary_module.py, learning_path.py, templates/index.html, static/style.css, tests/, requirements.txt, .env.example, .gitignore.

Readability

Clear module names, focused functions, validation at API boundaries, structured prompts and consistent error handling.

Reusability

Shared Gemini generator, separated routing and feature logic, reusable Pydantic request models, isolated quiz parsing/validation, automated tests.

Security

Secrets are read from environment variables and .env is excluded from Git.
