

EDUGENIE — PROJECT DEMO PLANNING

Preparation

Start FastAPI with Uvicorn. Confirm environment variables, dependencies, browser interface and local model availability.

Demo flow

1. Introduce problem and solution.
2. Show home interface.
3. Demonstrate Q&A.
4. Demonstrate explanation.
5. Demonstrate summarization.
6. Generate and check a three-question quiz.
7. Generate learning recommendations.
8. Show repository and testing.
9. Explain security and future enhancements.
